

Rockwell Parts

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for technology, delivery, quality and service. They believe in working within an atmosphere that supports the utmost integrity with empowered teamwork, combined with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great importance on being an environmentally conscious company and offering a safe environment for their staff to work in. What's more, they have implemented many programs in the company in order to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever questions or comments, since they are happy to share and promote this policy with a greater understanding of their efforts. They are extremely dedicated to preserving and improving the natural world. AxleTech has an EHS program which not only protects the natural environment but which likewise actively protects their neighbors and staff as well.

AxleTech specializes in the designing and manufacture of planetary axles utilized for both commercial and military applications, which may consist of anything from airport ground support to construction equipment. They take great pride in being an innovative drive-train solutions provider too. AxleTech specifically designs axles to meet certain application demands. They have over 1000 different axle specs within their existing offering. With over one hundred years of experience and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The company is well known in various commercial and military applications. They provide complete axle assemblies utilized for aftermarket replacement requirements, along with servicing axle requirements for OE production. Their high mobility ISAS have further details that could be found in the "ISAS" product selection.
