

Clark Forklift Parts

Clark Forklift Parts - At present, there are at least 350,000 Clark forklifts performing worldwide, and in excess of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, covers more than 120,000 specialized parts built for 20 distinctive models of lift trucks and automated equipment. Your local Clark Dealer is your complete source for availability of all your components needs provided by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a really outstanding worldwide support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

Clark proudly remains an progressive leader of the material handling industry, pioneering safety features such as the worker restraint system. This exceptional dedication to safety is currently a standard feature on every lift truck.

Clark has a uncompromising objective to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly plants because this system is extremely economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for manufacturing plant stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to improve the efficiency and excellence of their merchandise while minimizing costs. The new value engineering agenda combines modern product improvement and offers superior consumer support and service within the industry.
