

## Concrete Hopper

Concrete Hopper - The self-dumping hopper accessory could automatically trigger to both unload and release whenever the bumper release touches the side of a dumpster. Once unloading is done, the hopper is able to go back to original upright and locked position. This piece of machinery likewise comes together with a cable which allows operation from the seat of the forklift to be able to have the alternative of manually dumping the hopper. There is a locking chain provided to lock the hopper to the fork truck. This product is made with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish to maintain durability.
